

TOP 3 BUSINESS GADGETS

As much as technology might frustrate people, you cannot deny most of the time it does make life easier. Running ABM smoothly is a challenge. As with any business you have to wear many 'hats' and coordinate with lots people. To help with this process here are my top 3 gadget suggestions.

ACER MONITORS

I know as a company we go on and on about the importance of monitors. But it does improve efficiency and it doesn't have to be an expensive change. I have three 27" Acer monitors all lined up, and it drastically improves my workflow.

IPHONE XS MAX

There are other great phone options, but for me I find the iPhone seamless in the corporate world. The max is great because of it's big screen, this is always appreciated, not just for typing but for my eyesight as well.

MICROSOFT PRO

This is essentially a tablet with an attachable keyboard. Because it is a Microsoft device it has all of the functionality of my office - based PC. This is a really handy piece of kit. Designed solely for business people on the move.
